

In the claims:

1 (Currently Amended). A cemetery flower holder insertable into a vase comprising a shaft and multiple elongated deformable extensions extending outwardly from said shaft with the ends thereof in abutment with the inner surface of said vase, said extensions being respectively horizontally and vertically spaced, a base shaft and an upper shaft with a disc disposed therebetween, and a foam insert substantially enveloping said upper shaft.

2 (Canceled)

3 (Original). A cemetery flower holder according to claim 2 wherein the end of said upper shaft remote from said disc is enlarged.

4 (Original). A cemetery flower holder according to claim 2 wherein said disc comprises an upper surface and wherein at least one prong extends upwardly from said upper surface.

5 (Original). A cemetery flower holder according to claim 2 wherein said disc comprises an outer edge and wherein a pair of straps extend upwardly from said outer edge.

6 (Canceled)

7 (Previously Presented). A cemetery flower holder comprising a shaft and multiple extensions extending outwardly from said shaft, said shaft comprising a base shaft and an upper shaft with a disc disposed therebetween, said disc comprising an outer edge, and a pair of straps extending upwardly from said outer edge.

8 (Canceled)

9 (New) A cemetery flower holder insertable into a vase comprising a shaft and multiple elongated deformable extensions extending outwardly from said shaft with the ends thereof in abutment with the inner surface of said vase, said shaft comprising a base shaft and an upper shaft with a disc disposed therebetween, and said disc comprising an upper surface, and at least one prong extending upwardly from said upper surface.
